**Subject:** Kaiser - Spokane Recycling & CDC

Hi Brooks,

A couple of things:

- 1) I uploaded the ATP Analysis for CDC Mead, L.L.C. to the EPA GoAnywhere site. You should have been notified about it.
- 2) Regarding Spokane Recycling Company, Inc., my team went back to the WASOS to get an update on the status of this party as we were developing the ATP analysis. I wanted to inform you and Kris about the change in the corporate status as of a month ago. See below:

Washington corporate records show Spokane Recycling Company LLC was formed in Washington on August 1, 2014 and was administratively dissolved on January 3, 2020. [Doc. Nos. 8 and 145.] Spokane Recycling Company LLC received a delinquency notice on September 1, 2019 for not filing its annual report. The Washington Secretary of State informed Spokane Recycling Company LLC to file its annual report by December 31, 2019 or it would be administratively dissolved or terminated. On January 3, 2020, the Washington Secretary of State sent a notice of administrative dissolution to Spokane Recycling Company LLC. [Doc. No. 145.]

Thanks  
Lisa
